

2001 Via Domitia Syrah

Tasting Note:

Under the Mediterranean sun the ancient road “Via Domitia” leads you through some of the best wine country in the world. Syrah has been the premier grape produced in these parts for centuries, and we invite you to partake in the regions traditions with our world class Syrah. Lovely rich red berry fruit with hints of pepper and chocolate. The velvety mouth feel is a result of a superb year in 2001 when Syrah vines were able to develop gracefully in perfect growing conditions. This wine is a prime example that serious wines from the Languedoc can age beautifully. Via Domitia can be cellared with confidence for three to five years.
